

Disaster Reserves List on VolunteersRock.org

Thank you for your interest in volunteering after a disaster. Registering does not commit you to any future disaster projects. It simply allows disaster managers to call on you and your special skills in a time of need. You can change your interests or remove your name from the list at any time. To keep your name active on the list, simply update your contact and skills information annually so you can be reached when needed.

Joining the Disaster Reserves List in four easy steps!

1. Go to VolunteersRock.org. Click **LOGIN/JOIN**. Do you have an account?
 - a. If yes, enter email and password under **"Existing User Login"**
 - b. If no, quickly create an account by entering your name, email, and a password under **"New User Registration"**
2. Once logged in, click **MY PROFILE** (2nd tab across the top). Then click the orange **EDIT YOUR PROFILE** button.
3. Under Basic Information make sure the **"Yes, you may contact me"** button is selected. In addition, take a few minutes to ensure your contact information is correct, especially mobile and home phone numbers. After making any changes, remember to click **UPDATE USER INFO**.

4. Remember to update your information annually to ensure we have accurate contact information in times of disaster.

If you have any questions, please contact the Volunteer Center at 715-254-2192 or email volunteer@unitedwaypoco.org.
